

SAPTARSHI PAUL

Software Engineer | Full-Stack Developer | AI Builder

Kolkata, West Bengal, India | saptarshi2027paul@gmail.com | +91-7980599896 | LeetCode: SaptaDev27 | GitHub: Sapta-Dev27

EDUCATION

Techno Main Salt Lake, Kolkata

B.Tech in Computer Science and Engineering (Data Science) | Aug 2023 - June 2027 | CGPA: 7.7/10.00

EXPERIENCE

Pinggy - Software Engineer Intern (Remote)

Sep 2026 - Present | Full-Stack Development, React.js, Node.js, REST APIs, MongoDB/SQL

- Developed and integrated frontend components and backend services, debugging issues and improving performance.
- Enhanced application reliability, responsiveness, and user experience across distributed endpoints.

Techno Billion AI - Full Stack Software Engineer Intern (Hybrid)

Aug 2025 - Oct 2025 | Full Stack Development, Software Engineering

- Contributed to full-stack development and developed end-to-end features and backend services.
- Implemented RESTful APIs, database interactions, debugging workflows, and reliability/scalability improvements.

PROJECTS

HireBuddy - AI-Powered Career Copilot (React, Node.js, Express, MongoDB, JWT, AI Agents)

- Built full-stack platform for resume ATS analysis, job discovery, application tracking, and GitHub scoring.
- Implemented REST APIs, JWT auth, AI agents for simulated mock interviews, and automated job scraping workflows.

uPay - Digital Wallet & UPI Payment System (Express, MongoDB, JWT, REST APIs)

- Built backend payment platform supporting wallet management, P2P transfers, dynamic UPI IDs, recharges & refunds.
- Implemented MPIN authorization, protected API routes, and controller-middleware-model architecture.

InspiroAI - AI-Powered SaaS Platform (React, Express, MongoDB, JWT, Gemini, Stability AI)

- Full-stack generative AI SaaS for automated blogs, articles, image generation, thumbnails, and resume analysis.
- Integrated Gemini LLM & Stability AI APIs with responsive content-sharing workflows and user dashboards.

TECHNICAL SKILLS

Languages: Java, C++, JavaScript | Web: ReactJS, UI Libraries, NodeJS, Express

Databases: MongoDB, SQL, PostgreSQL | DevOps: Git, Docker, CI/CD | Tools: Postman, VS Code, Copilot, Antigravity

CS Fundamentals: System Design, OOPS, Computer Networks, Operating Systems, Data Structures & Algorithms

ACHIEVEMENTS & LEADERSHIP

- 750+ Problems Solved on LeetCode with 1577 Contest Rating across 25+ Contests.
- Tech Lead (Web Dev Team) @ GDG On Campus TMSL; previously Core Team Web Dev.
- 2X Top 10 Open Source Contributor (Apetre 2.0 - Feb 2025 & Apetre - Feb 2024).
- State Level Hackathon Winner: CraftNCode, IIIT Bhubaneswar (Nov 2024) - Top 2 teams from state.
- 2X Top 10 Finalist @ Double Slash 3.0 & Double Slash 4.0 Hackathons (Jadavpur University).
